## Group & Overview

# Transforming talents into Business Owners with international reach

## Magellan Group

Inspired by the Spanish explorer Fernando Magellan (1480-1521), the Magellan Group was founded and supported by likeminded professionals and investors from Asia & Europe. The Group combines the interest and cooperation of various individuals, ventures, companies and independent parties globally who all have the passion to explore and exploit opportunities, to support people & businesses for success.

The vision is to transform aspiring entrepreneurs into successful international viable business owners, by inducting business skills, opportunities and network in selected business ventures. To achieve this ambitious vision Magellan Group has set up with its partners various programs to focus on success mindset and skill development. With our members we partners on their success journeys and follow the following methodology owned by Magellan Group and its partners.
